

How To Use Digital Learning Platforms

IIT-JEE Preparation

Digital is Not Necessarily A Distraction

In today's times, the digital revolution has contributed significantly to the arena of education. **IIT JEE aspirants** can conveniently use the digital platform to their advantage.

Advantage of Digital Learning Platforms

Video Lectures

Video lectures complete coverage of all the topics of IIT JEE along with a variety of tips and short cut methods that will greatly aid the students in quick and effective understanding of all the topics. Moreover this technique of learning allows students to stay in the comfort of their home as it eliminates the need for migration in order to get the advantage of studying from the best faculties of India. More than 330 Video Lectures 300+ Hours of Video Lectures: Physics: 110+ hours | Chemistry: 120+ hours | Maths: 80+ hours

Video Solution

Motion provides complete learning of conceptual and theoretical solutions for a variety of difficult questions and discuss necessary solutions that are required for preparation of IIT JEE examination. It allows you to get on the latest track of new pattern of JEE exam with the dynamic customized courses for IIT JEE. Video solutions are available to subject wise and topic wise question bank based on the latest pattern.

QUIZ

Students are kept up to date to their current topics by the help of our weekly quiz sessions on quiz. Regularly appearing for tests also increases student's speed which is an extremely important aspect for all the competitive exams. A wide range of quizzes are available based on classes and courses with the option of taking tests on the basis of level of difficulty.

AIMS

Motion's All India Test Series (AIMS) is a simple yet highly effective test platform giving students multiple types of topic-wise tests with varying level of toughness. It is a key component of Motion's system which gives students a User Interface (UI) similar to IIT-JEE. This platform allows students to get accustomed to the look and feel of the actual exam.

SPR

SPR gives an exhaustive analysis of student's performance in various tests given by him/her. Through SPR students can analyze their weak topics, level of questions, time taken in every question in comparison with top students. This helps in planning and strategizing for further improvement in their score.

CPS

Conceptual Problem Sheet (CPS) includes 12 exercise sheets with 10-15 questions related to current and previous topics which can be accessed in test section. It ensures regular revision of previous topic and constant practice of running topic.

E-Books

Motion provides complete learning of conceptual and theoretical solutions for a variety of difficult questions and discuss necessary solutions that are required for preparation of IIT JEE examination. It allows you to get on the latest track of new pattern of IIT JEE exam with the dynamic customized courses for IIT JEE.

Flash Card

Flash Card is an offline application which includes PCM study notes and formulas in a nutshell. It is an essential application to quickly go through the topics & formulae and revise them anytime anywhere. Flashcards exercise the mental process of active recall and retention of concepts.

Flashcard is an offline application which includes PCM study notes and formulas in a nutshell. It is an essential application to quickly go through the topics & formulae and revise them anytime anywhere. Flashcards exercise the mental process of active recall and retention of concepts. It gives the students a brief of every topic as well as tips and tricks to memorize better.
